Dear Mr. Artru:

Enclosed please find a copy of each of the above-referenced Patent Applications, which you had reviewed and approved, which were filed as provisional applications in June 2000. These are or have now been filed as nonprovisional applications. Also enclosed please find the Declarations and Assignments for each of these filed applications. Paul Voois has already executed the majority of these documents. As we have not yet received your set, we kindly ask that you review the applications once more, execute the Assignments and Declarations, and return them to us in the enclosed postage paid envelope.

Your obligation to maintain information such as that disclosed in these patent documents, of course, remains intact. Also, if you believe others should be named as inventors, please let us know as soon as possible and provide evidence of the individual's contribution. If we don't hear back from you with an objection to either your duties of confidentiality or the currently named inventors, we shall proceed under the assumption that there is no objection.

We appreciate your assistance as always.

Very truly yours,
